Jak dostat Stockfish do Chess PGN Master

Nejprve si v Obchod Play najdete a nainstalujete Stockfish 15.1 Chess Engine

tak se nic dít nebude, objeví se pouze toto upozornění.

To use Stockfish 15.1 you need to Install a GUI app

Recommended GUI Apps

Chessis

Droidfish

Chess for All

Chess Pgn Master

After Installing the GUI app, Go to Settings->Choose Engine

Znamená to, že Stockfish sám o sobě pracovat nemůže, potřebuje k tomu nějaký program, do kterého se nainstaluje a to je třeba Chess PGN Master.

Spustíme Chess PGN Master, zobrazíme Menu a zvolíme Preferences.

V Preferences zvolíme UCI engine
